

Norseman Defense Technologies

Norseman, Inc.
Small Business

For thirty four years Norseman has designed, delivered, and supported IT infrastructure, cybersecurity, and engineering for the Department of War (DoW) and the Intelligence Community. We now apply those same practices for commercial enterprise.

CORE COMPETENCIES

Digital Foundations. Compute, storage, and network infrastructure designed, delivered, and supported end to end.

Cyber Resilience & Zero Trust. Zero trust architecture, detection and response, identity, and compliance that holds up under audit.

Platform Engineering & Secure Delivery. Secure, automated software pipelines and platforms that ship features faster with fewer surprises.

Applied AI & Data Analytics. Private AI, analytics platforms, and data architecture that keep sensitive data inside your walls.

Digital Service Operations & AIOps. ServiceNow, AIOps, and automation that cut ticket volume and keep services running.

Cloud & Edge Platforms. Cloud migration, multicloud management, and edge platforms that work when the network does not.

DIFFERENTIATORS
